

“PP” POTS CAN BE DECORATED AS FOLLOWS:

P.M.L.= Post Mould Labelling

A high quality printed PP label is applied to the pots after production. The result is a perfect decorated and long lasting finish. All our label applications are carried out at our purpose built BRC approved print room in Naas.

I.M.L. = In Mould Labelling

A high quality printed PP label is robotically put into the mould during the manufacturing process. The result is a perfect decorated and long lasting finish.

SLEEVING

A high quality printed sleeve cut to suit the particular size of pot required, with options to print inside the sleeve gives a lot of print area for any information you may want to communicate to your customer.
